

## **One Love** (WEKromico)

Bronze Medal

*“One love, one heart, let’s get together and feel alright”*

Bob Marley’s words are classic and so is this special new floribunda rose.

Red, red high pointed buds unfold and age to classic mauve magenta. Flowers hold a perfume that we all can associate with love because we relate and react in different ways to the scents. Of course match all that emotion with clean green foliage, a natural energy and hardiness to the toughest and hottest spells and you have a match made in heaven.

Colour : rich red bud opening to smokey mauve/purple
