

# x factor

## Friendly Fences

Xylosma senticosum

origin	SE Asia/Eastern Pacific
height	prune to any height from 1 mtr mature unpruned height 5 mtrs
width	prune to any width from 1mtr mature unpruned width 3mtrs
foliage	glossy pale lime, naturally attractive and informal. sensational weak tea bronzed new growth
flowers	small and insignificant
cold tolerance	good
hates	wet feet, dense shade
loves	hedging and screening

**x factor**, some have it, some don't. no-one thinks this plant isn't attractive. as a stand alone garden plant it will add a texture and charm that others can't. as a hedge or screen it will show swish and style that will impress all that see it. as a funky shape it will do justice to any garden art project. easy to prune, no heavy woody parts that need a chainsaw, if it is hedged periodically. this is a real commercially valuable planting for easy maintenance.
